Tournament Manager

Contents

1. Features

- Add and remove players

- swiss system (javafo)

- round-robin

- manual pairing

- tiebreaks[1]

- rounds up to 127

- prints (not for every page)

- only results approved by FIDE[2]

- FIDE rating changes

- polish rating and titles

- withdrawal of a player (round or tournament)

- halfbye support

- FIDE register form

- FIDE (Krauze) raport

- start list sorting[3]

- schedule (for FIDE raport)

- multitournament/groups support (more than one tournament open at a time)

- import files trf, pgn and swsx (chessarbiter file)

2. Creating new tournament

Standard

After launch, an empty tournament is automatically created.

If you have already created a tournament and want to create another one, you must first save the old one (if it has already been saved, it will happen automatically, otherwise you will see a filechooser to save the file on creating new tournament).
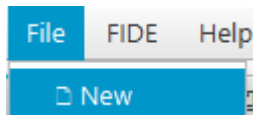

---

1 Points, duel, wins, games with black, wins with black, bucholz, bucholz cut1, median buchoz, sonnen-berger, progress, koya, rating performance (FIDE and Polish chess association), average rating (FIDE and local)
2 Empty, 1-0, 0.5-0.5, 0-1, +--, --+, 0-0, 0.5-0, 0-0.5
3 By title, fide rating, local rating, sex, club, federation, date of birth, alphabetic, random
To create new tournament you can

- File > New

- icon on the toolbar

- pressing CTRL + N

Test

To create test tournament after creating standard tournament click (Home > basic info)

test swiss tournaments are created by javafo (are not necessarily correct)

test round-robin tournaments have default 1 repeat

3. Tournament descriptive data

You can set descriptive data in Home > Basic info

Notices

- game time and increment must be between[4] 0 and 32_767

- control move and control addition must be netween 0 and 127

- round must be between 0 and 127

- First round color does not affect round-robin

4. Tiebreak

Tab Home > Tiebreak

---

[4]including boundaries

Default is selected FIDE mode – it mean for

- swiss
    1. points
    2. buchulz cut1
    3. bucholz
    4. sonnen-berger
    5. progress
- round-robin
    1. points
    2. duel
    3. wins
    4. sonnen-berger
    5. koya

points for

win – 1

draw – 0.5

lose – 0

forfeit win – 1

forfeit lose – 0

bye – 1 in swiss, 0 in round-robin

halbye – 0.5

If fide mode is turn on, then you can't change tiebreak settings

Available tiebreaks:

- Points
- duel

- wins

- games with black

- wins with black

- bucholz

- bucholz cut1

- sonnen-berger

- progress

- koya

- rating performance (FIDE and Polish chess association)

- average rating (FIDE and local)

5.   Rating options

Home > Rating options

Fide init rating

Minimum number of games and minimum rating for FIDE rating

PZSzach (Polish chess association) categories

Define changes in calculating ratings and maximum possible category (default M – national master).

FIDE titles

Minimum number of games and whether the two-confederation rule affects (coming soon)

6.   Schedule

Home > Schedule

Allows you to set the date for rounds, check-in and end.

The number of rounds in the schedule is updated depending on number of round in basic info.

7.   Rounds overview

Single round

Rounds > Overview

Printable

To select any round you can use select

To go to first, previous, next or last round you can use controls

All rounds

Rounds > All
Coming soon printable

Show all rounds

8. Pairing

Manual

Rounds > Manual

To choose round you select

To find player with name starts with string you can use

 or

Pair players

To pair select player from first list (white) and second (black)

and click pair

You cannot pair a player with himself
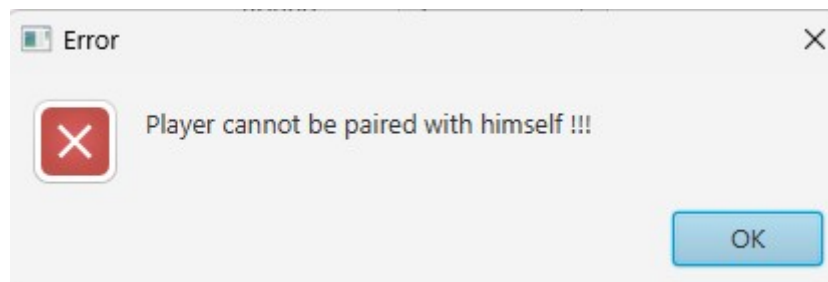

Bye, Half-Bye and unpaired

Select player from first and/or from second list and click
„Withdraw from pairing" if player is unpaired (zero-point bye)

„BYE" if player has bye as opponent (full-point bye)

„HALF-BYE" if the player requested a half-bye
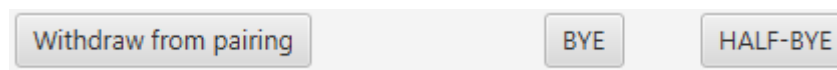

Unpair

To unpair select pair and click

1.	2179 bk	Test0047 Player0047 – Test0002 Player0002	bk	2579
2.	2542 bk	Test0003 Player0003 – Test0048 Player0048	bk	2179
3.	2504 bk	Test0005 Player0005 – Test0050 Player0050	bk	2173
4.	2165 bk	Test0051 Player0051 – Test0006 Player0006	bk	2481
5.	2480 bk	Test0007 Player0007 – Test0052 Player0052	bk	2161
6.	2152 bk	Test0053 Player0053 – Test0008 Player0008	bk	2466
7.	2442 bk	Test0009 Player0009 – Test0054 Player0054	bk	2148
8.	2135 bk	Test0056 Player0056 – Test0010 Player0010	bk	2437
9.	2433 bk	Test0011 Player0011 – Test0057 Player0057	bk	2133
10.	2130 bk	Test0058 Player0058 – Test0012 Player0012	bk	2432

Another features

Swap colors – change players colors

select pair and click „swap colors"

Clear status – unselect white, black and pair

click „Clear status"

AutoColot – comming soon

Pair rest auto – comming soon

Pairing has no effect until you press „Apply".

Using engine

Rounds > Overview

click Pair

9. Remove round

Rounds > Overview

click Delete

If round isn't last you must confirm deleting round (and subsequent rounds)

10. Validating (checking correction) pairings

Tournament

To check all pairings

Home > Basic info

click validate

example result
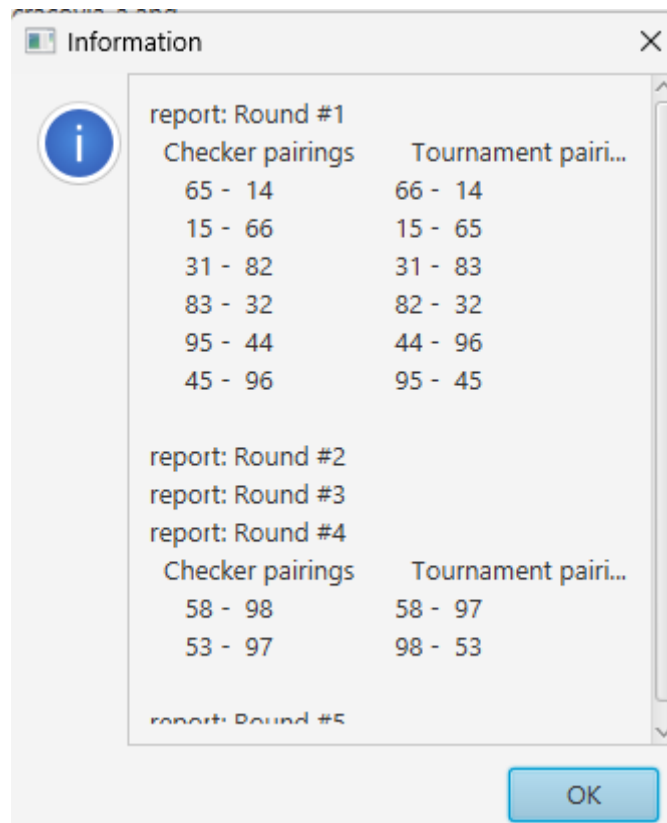

in round #1 incorrect pairings are 66-14, 15-65, 31-83, 82-32, 44-96, 95-45
round #2 and #3 are ok, in round #4 incorrect pairing are 58-97 and 98-53

Single round

Rounds > Overview

click Validate

11. Start list

Players > List

To delete player click [Delete] for appropriate row. Warning! Program do not check if player played a game - Removing a player who played a game may result in undefined behavior.
data correction

FIDE

If you havn't downloaded list first click on toolbar [± FIDE list] .

Then click [Correct FIDE data]
Polish players data

If you havn't downloaded list first click on toolbar [± polish list]

Then click [Correct PL data]

12. Sorting list

Players > Sort Criteria

Available criteria

- title
- fide rating
- local rating
- sex
- club
- federation
- date of birth
- alphabetic
- random (not recommended)

Sorting has no effect until you press „Apply”.

13. Players details

Players > Add player

New player

To add new player fill form and click [Add] or [Add and clear] (to clear form)

If name is longer than 3 characters, then you will see FIDE players (players with names starts with this string), if string isn't empty then you will see polish players. To fill data with their data select player and click [insert from list]

Edit player

To edit data choose player from list

edit data and click [Update]

notice:

year, month and day of birth, title and localid are overwroted only if aren't empty in player data (from list) and form fields are empty (Title.bk for title)

14. Withdrawal

Players > Withdrawal

You can withdraw a player round, tournament or set half-bye in round.

To withdraw player select him from list

Choose withdraw type

If withdraw type is round or half-bye set round and click Accept

To reinstate the player into the tournament click Bring back for appropriate player.

15. Player Card

Players > Player Card
